UNIVERSITY COLLEGE, LONDON.

PROCEEDINGS

AT THE

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

24TH FEBRUARY, 1858.

REPORT OF COUNCIL AND FINANCIAL STATEMENTS.

LONDON:

PRINTED BY TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET.

1858.

OFFICERS OF THE COLLEGE.

President.—LORD BROUGHAM.
Vice-President.—THE EARL FORTESCUE, K.G.
Treasurer.—JOHN TAYLOR, Esq., F.R.S.

COUNCIL.

The President.
Lord Belper.
James Booth, Esq.
*Dr. Boott.
*Edward Enfield, Esq.
Robert Nicholas Fowler, Esq.
*Thomas Field Gibson, Esq.
The Baron de Goldsmid.
*Francis Henry Goldsmid, Esq.
George Grote, Esq.
Robert Hutton, Esq.
Arthur Woodriff Jaffray, Esq.

*The Vice-President.
Frederick William Mackenzie, M.D.
Richard Martineau, Esq.
John Mellor, Esq., M.P.
Timothy Smith Osler, Esq.
*Alexander P. Prevost, Esq.
*Henry Crabb Robinson, Esq.
The Rt. Hon. Sir John Romilly, Master of the Rolls.
Edward Romilly, Esq.
The Rt. Hon. Sir Edward Ryan.
Frederic John Wood, Esq.

**The Treasurer.

** *Chairman*, * *Member, of the Committee of Management.*

AUDITORS.

John Manning Needham, Esq.
Thomas Merriman Coombs, Esq.
John Hampden Fordham, Esq.
William Fowler, Esq.

SENATE.

President.—THE EARL FORTESCUE, K.G.

Vice-Presidents.—H. C. ROBINSON, ESQ.; FRANCIS HENRY GOLDSMID, ESQ.

Faculty of Arts and Laws.

DEAN.—Edward S. Creasy, A.M.	Professor of Ancient and Modern History.
VICE-DEAN.—Augustus De Morgan	Mathematics.
Count Charles Arrivabene	Italian Language and Literature.
Dádábhái Naoroji	Gujaráti.
Thomas L. Donaldson, Esq., Ph.D.	Architecture.
John Dowson, Esq.	Hindustani.
Charles J. Foster, LL.D.	Jurisprudence.
Theodor Goldstücker, Ph.D.	Sanskrit.
Robert Edmond Grant, M.D.	Zoology.
Adolph Heimann, Ph.D.	German.
Eaton Hodgkinson, Esq.	Mechanical Principles of Engineering.
The Rev. John Hoppus, Ph.D.	Philosophy of the Mind, and Logic.
Thomas Hewitt Key, A.M.	Comparative Grammar.
Harman H. Lewis, A.M.	Civil Engineering.
John Lindley, Ph.D.	Botany.
Henry Malden, A.M.	Greek.
Rev. D. W. Marks	Hebrew.
David Masson, A.M.	English Language and Literature.
P. F. Merlet, Esq.	French.
John Morris, F.G.S.	Geology and Mineralogy.
Francis W. Newman, Esq.	Latin.
Richard Potter, A.M.	Natural Philosophy and Astronomy.
Charles Rieu, Ph.D.	Arabic.
John A. Russell, LL.B.	English Law.
Baron von Streng	Tamil.
Jacob Waley, A.M.	Political Economy.
Alex. W. Williamson, F.R.S.	Chemistry and Practical Chemistry.
Office vacant	Machinery.

Faculty of Medicine.

DEAN.—William Jenner, M.D.	Professor of Pathological Anatomy.
VICE-DEAN.—George V. Ellis, Esq.	Anatomy.
William B. Carpenter, M.D.	Medical Jurisprudence.
John E. Erichsen, Esq.	Surgery, and Clinical Surgery.
Alfred Baring Garrod, M.D.	Materia Medica, and Clinical Medicine.
Robert Edmond Grant, M.D.	Comparative Anatomy.
T. Wharton Jones, Esq.	Ophthalmic Medicine and Surgery.
John Lindley, Ph.D.	Botany.
Edward W. Murphy, M.D.	Obstetric Medicine.
Edmund A. Parkes, M.D.	Clinical Medicine.
Richard Quain, Esq.	Clinical Surgery.
William Sharpey, M.D.	Anatomy and Physiology.
W. H. Walshe, M.D.	Medicine and Clinical Medicine.
Alexander W. Williamson, F.R.S.	Chemistry and Practical Chemistry.

Junior School.

HEAD MASTER.—T. Hewitt Key, A.M.

Secretary to the Council.—Charles C. Atkinson.

UNIVERSITY COLLEGE, LONDON.

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

WEDNESDAY, FEBRUARY 24, 1858.

JOHN TAYLOR, ESQ., F.R.S.,

Treasurer,

IN THE CHAIR.

The Chairman appointed HENRY BROWN, Esq., and ALFRED WILLS, LL.B., Fellow of the College, Scrutineers, to ascertain and report the result of the Ballot.

The Requisition and following Lists were read by the Secretary:—

1. OF OFFICES LIABLE TO BE VACATED.

President, Vice-President, Treasurer, six Councillors, Auditor.

2. OF MEMBERS HOLDING THESE OFFICES.

President. LORD BROUGHAM.

Vice-President. THE EARL FORTESCUE, K.G.

Treasurer. JOHN TAYLOR, Esq., F.R.S.

Councillors.

LORD BELPER.
GEORGE BISHOP, Esq.
THE HON. MR. JUSTICE CROMPTON.
EDWARD ROMILLY, Esq.
THE RIGHT HON. SIR EDWARD RYAN.
THOMAS THORNELY, Esq., M.P.

Auditor. CHARLES HILL, Esq.

3. MEMBERS PROPOSED.	BY WHOM PROPOSED.
For President,	
LORD BROUGHAM	THE COUNCIL.
For Vice-President,	
THE EARL FORTESCUE, K.G.	THE COUNCIL.
For Treasurer,	
JOHN TAYLOR, Esq., F.R.S.	THE COUNCIL.

3. MEMBERS PROPOSED. BY WHOM PROPOSED.

For Councillors,

LORD BELPER (for re-election).....THE COUNCIL.
ARTHUR WOODRIFF JAFFRAY, Esq.....THE COUNCIL.
JOHN MELLOR, Esq., M.P. .....THE COUNCIL.
TIMOTHY SMITH OSLER, Esq., Fellow of the College .....THE COUNCIL.
EDWARD ROMILLY, Esq. (for re-election) .....THE COUNCIL.
THE RIGHT HON. SIR EDWARD RYAN (for re-election) ...THE COUNCIL.

For Auditor,

WILLIAM FOWLER, Esq., Fellow of the College .....THE COUNCIL.

The Report of the Council was read by the Secretary.

The Report of the Auditors, containing the Statement of Receipt and Expenditure for the year 1856–1857, and other Financial Papers, *vide* pages 14, 15, were read.

On the motion of William Yool, Esq., seconded by Professor Foster,

RESOLVED UNANIMOUSLY,—That the Report be received: that it be printed and circulated among the Members of the College.

The Return of the Scrutineers was presented to the Chairman, who declared the RESULT OF THE BALLOT to be as follows:—

For President.....LORD BROUGHAM.
For Vice-President .....THE EARL FORTESCUE.
For Treasurer.....JOHN TAYLOR, Esq.

For Councillors.

LORD BELPER.
ARTHUR WOODRIFF JAFFRAY, Esq.
JOHN MELLOR, Esq., M.P.
TIMOTHY SMITH OSLER, Esq.
EDWARD ROMILLY, Esq.
THE RIGHT HON. SIR EDWARD RYAN.

For Auditor, WILLIAM FOWLER, Esq.

JOHN TAYLOR, *Chairman.*

On the motion of Henry C. Robinson, Esq., seconded by James Heywood, Esq.,

RESOLVED UNANIMOUSLY,—That the thanks of the College be given to Mr. Taylor for his kindness in presiding at this Meeting, and for his conduct in the Chair.

CHARLES C. ATKINSON, *Secretary.*

REPORT.

SESSION 1856-57.

STUDENTS.

THE number of Pupils in the College during the Session 1856–57 was 850: viz. 460 Students, and 390 boys in the Junior School. The Students of the Faculty of Medicine were 210, of whom 54 were new Students; the Students of the Faculty of Arts and Laws were 250, including 67 attending the Patriot Fund Classes for Schoolmasters; the new Students in the general Classes were 96. The Students of Analytical Chemistry in the Birkbeck Laboratory were 24. The highest number of Boys in the Junior School in any one term was 342. The Receipt from Students and Pupils was £14,296 9*s.* The sum of £5143 7*s.* was received from the Medical Faculty, viz. for Attendance on Classes, £3580 10*s.*; on Hospital Practice, £1562 17*s.* The Receipt on account of the Faculty of Arts and Laws was £3323 2*s.*: that of the Junior School, £5830. The share of Professors and Masters, exclusive of the annual augmentations to the Professors of Natural Philosophy and Comparative Anatomy, and of the interest of the Patriot Fund to the Professors of the Schoolmasters' Classes, was £9370 15*s.* 1*d.* The College portion amounted to £3362 16*s.* 11*d.* The sum of £1562 17*s.* received for Clinical Instruction at the Hospital, was paid to the Hospital Committee towards the support of the Charity.

The entries for the current Session up to this period are—Medical Students, 186, of whom 53 are new Students; new entries to the Hospital Practice, 57; Students of the Faculty of Arts and Laws, 162; new Students 96; making, together with 50 attending the Schoolmasters' Classes, 212. The number of Boys in the Junior School in this Term is 331.

Comparing the present year with the last, at the corresponding period, the result is, that this year in each of the Faculties the total of Students is less, while the number of new Students is greater. In the Medical Faculty the diminution in the entire number is 15, viz. 186 against 201; the increase in new entries is 4, viz. from 49 to 53. In the Faculty of Arts the difference is, decrease on the total 2, increase in new Students 11.

COLLEGE PRIZES.

The Andrews Scholarships of the College for 1857, for proficiency in Latin, Greek, Mathematics, and Natural Philosophy, were awarded as follows: the first, £100, to Mr. Alexander Waugh Young; the second, £60, to Mr. Samuel H. Behrend. Mr. Young obtained the second Scholarship last year. The Clinical Medals of Dr. Fellowes for Medicine, were conferred as follows:—The Gold Medal for the Winter Term, on Mr. David Richards, of Llandovery. That for the Summer Term, on Dr. Chandra Rajendra Chandra, of Calcutta. The Liston Clinical Gold Medal was not awarded. The Longridge Prize of £40, of the Session of 1857, for general proficiency in Medicine and Surgery, was awarded to Mr. Edward Wynne Thomas, of Oswestry. The Prize of £25, offered by the Baron de Goldsmid, for the Class of Hebrew, was equally divided between

Mr. Thomas Hall Gladstone, of Stockwell Lodge, Surrey, and Mr. Samuel Hesse Behrend, of Liverpool. Mr. Lawrence Counsel's Prize of £10 for the Class of Law, was not awarded; it will be at the disposal of the Professors for presentation to the most successful Student, if found deserving, at the end of the present Session. The Prize offered by the Council for the best English Essay on an Historical, Biographical, or Speculative subject, was awarded to Mr. Horatio Nelson Grimley, of Birmingham. The Essays of Mr. Pye Smith and Mr. John Jones, received commendation. The subject, proposed by the Senate, was "Druids and Druidism." The examiners were Professor Malden and Professor Masson, and there were 12 Candidates. A similar prize has been offered for the current Session. The subject, "Compare Ancient and Modern Slavery."

JUNIOR SCHOOL.

The Report to the Council from their Committee on the Junior School is again favourable. The statement as to the number of Boys in the School in the year 1856–57 was highly satisfactory, both positively and comparatively. They were in the first Term, 326, in the second, 328, in the third, 342. These totals, in themselves large, present a marked superiority as compared with the corresponding totals, 276, 296, and 307, of the three terms of the preceding year, and they exceed the totals of any former year since the establishment of the School.

From the reports of the Head Master and of Professor Malden on the general condition of the School, and those of the Assistant Masters, describing the state of the Classes under their respective management, it appeared that the result of the year's teaching, as manifested in the concluding Examinations, proved on the whole very satisfactory: while, of the moral condition of the School, the Head Master reported in terms of unqualified approbation, and the reports of the Assistant Masters tended generally to confirm his favourable judgment; more than one of them stating that they had had no occasion during the whole Session to make complaint against any of the pupils.

The Committee looked with interest to the progress of the Class of Social Science, noticed in the last Report, as a novelty in the School. They found that the examination, which had been conducted by the Head Master himself, furnished good proof both of the effective attention paid by the Class generally, and of the positive benefit obtained in the case of a large proportion of it: since, out of 60 Pupils, no less than 25 exhibited decided merit in their answers to the questions; while, of the four Prizes awarded, the first was obtained by a paper of very superior excellence. The Class continued to be numerously attended during the present year: it had been divided into two, Senior and Junior, both of them under Mr. Shields, and embracing the same general topics of Instruction, but accommodated to the greater or less maturity and advancement of the pupils. In their former Report, the Committee commended the Institution of this Class as likely to prove a beneficial addition to the School-teaching; and the result of the recent examination had confirmed them in the favourable opinion then expressed.

Respecting the School generally during the present year also, the Committee reported that the Session was commenced with a total of pupils not merely equal to the corresponding term of last year, but even greater: that, considering the sensible increase of last year, the further increase deserved particular remark, and afforded a proof, honourable to the Masters, of the estimation in which the teaching of the School is held by the parents, and at the same time attested the energy and success of the Head Master in overcoming unexpected difficulties presented by the inadequacy of his staff of teachers, occasioned by the resignation of two

Masters, combined with the simultaneous increase of pupils, at the commencement of the Session of 1856–57.

In their last Report, the Council noticed the attendance in the School of three Young Parsees: they have watched with interest the progress of these Indian pupils, and are gratified at finding in the report of the Distribution of Prizes that all three obtained "*mention with praise,*" and that two of them, Naorojee Pohcah, and Framjee Bomanjee Cama, are recorded as having each of them received the prizes in several Classes.

The former Pupils of the School who distinguished themselves in the College Examinations, and obtained Prizes and Certificates of Honour, were:—Mr. Joseph Maurice Solomon, the first Andrews Scholarship of £100, the second Prize in Senior Latin, and the third Prize in Senior Greek; Mr. Hermann Nathan Adler, the Prize in the Senior Class of English Language and Literature, the Prize in Philosophy of Mind and Logic, and the first Certificate in History of Moral Philosophy; Mr. Joseph Hammond, the second Prize in the Junior Class of English Language and Literature, and the first Prize in the Senior Class of Greek; Mr. Jacob Stiebel, the fourth Certificate in the Junior Class of Latin, the Prize in the Lower Senior Class of Mathematics, and the first Prize in the Junior Mathematical Class of Natural Philosophy and Astronomy; Mr. Wilmot H. T. Power, the second Certificate in the Senior Class of Italian Language and Literature, the Prize in History, and the first Prize in Geology; Mr. Marcus N. Adler, the second Prize in the Higher Senior Class of Mathematics, and the second Certificate in the Senior Mathematical Class of Natural Philosophy and Astronomy; Mr. Henry Goodman, the fourth Certificate in the Higher Senior Class of Mathematics, and the Prize in the Senior Mathematical Class of Natural Philosophy and Astronomy; ~~Mr. George E. Foster, the second Certificate in the Lower Senior Class of Mathematics, and the second Prize in the Junior Mathematical Class of Natural Philosophy and Astronomy;~~ Mr. John B. Taunton, the second Prize in the Class of Geology; and Mr. Ralph Daniel M. Littler, the Prize in the Class of English Law. The following, all formerly in the Junior School, obtained Certificates of Honour:—Mr. Edward Ellis, the fifth Certificate in the Junior Class of English Language and Literarature; Mr. Talfourd Ely, the ninth Certificate in the Senior Class of Greek, and the seventh Certificate in the Higher Junior Class of Mathematics; Mr. Warner Atkinson, the third Certificate in the Senior Class of French, and the fifth Certificate in the Higher Junior Class of Mathematics; Mr. Edward L. Asher, the third Certificate in the Junior Class of German, and the third Certificate in the first year's Course of Civil Engineering; Mr. Henry Arthur Nesbitt, the third Certificate in the Higher Senior Class of Mathematics; Mr. Arthur Charles, the fifth Certificate in the Higher Senior Class of Mathematics, the seventh Certificate in the Senior Class of Greek, and the third Certificate in the Senior Mathematical Class of Natural Philosophy and Astronomy; Mr. William F. de Morgan, the fifth Certificate in the Higher Junior Class of Mathematics; Mr. Josiah Strachan, the sixth Certificate in the Higher Junior Class of Mathematics; Mr. Charles F. James, the eighth Certificate in the Higher Senior Class of Mathematics; and Mr. Laurie Magnus, the third Certificate in the first year's Course of Civil Engineering.

DEGREES.

The Degrees of the University of London taken by the Students of the College in the year 1857 were as follows:—M.D. 7, of a total of 12 from 5 Medical Schools; M.A. 2, of a total of 5 from 3 Colleges; LL.B. 5, from a total of 6 from 2 Colleges; M.B. 8 (6 in the First Division), of a total of 30 from 10 Medical Schools; A.B. 30 (18 in the First Division),

of a total of 66 from 18 Institutions:—in all 52 of a total of 119 from 27 Institutions. Two hundred and twenty-four Students passed the Matriculation Examination: of these 56 proceeded from private tuition; of the remaining 168 from 59 Schools, 32, including 5 from the Junior School (21 of whom, and 4 from the Junior School, were in the First Division), were from University College.

The Honours obtained by Students of this College at the University Examination were as follows:—Mr. Henry Carne Oats took the Degree of LL.B., with Honours for his Examination in the Principles of Legislation. At the Examination for the Degree of B.M., the University Scholarship of £50 per annum, tenable for two years, and the Gold Medal were conferred on Mr. W. Tilbury Fox for his Examination in Medicine. At that for the Degree of A.M., Mr. Henry Mason Bompas received the Gold Medal, of the value of £20, for his Examination in Mathematics and Natural Philosophy. At the Examination for the Degree of A.B., Mr. Marcus Nathan Adler, and Mr. Samuel Hesse Behrend (equal), were placed second, in Mathematics and Natural Philosophy, and Mr. Alexander Waugh Young third. Mr. Behrend and Mr. Richard Eccles (equal) were first at the Examination in Animal Physiology; Mr. John Home Payne obtained the second place.

Of Undergradutes at the first Examination for the Degree of M.B., Mr. Felix Henry Kempster obtained the Exhibition and Gold Medal for his Examination in Anatomy and Physiology, and the Exhibition and Gold Medal for his Examination in Chemistry.

Mr. Samuel Hoppus Adams obtained the Gold Medal for his Examination in Structural and Physiological Botany.

The Students who, since the last Report, have distinguished themselves at Examinations beyond the University are, Mr. Henry Mason Bompas, who, after taking the Degree of M.A. of the University of London with Honours, and the Gold Medal as above mentioned, took the Degree of B.A. of Cambridge as fifth Wrangler; and Dr. Chandra Rajendra Chandra, who, having succeeded at the Examination for the Medical Service of the East India Company, obtained an appointment of Assistant Surgeon.

PROFESSORSHIPS.

The Class of Italian is the only one in which there has been a change of Professor since the Council's Report of last year. For three Sessions, in consequence of Professor Gallenga's absence in Italy, the duties of the Professorship were performed by deputy. Signor Gallenga having returned, resumed his Lectures at the beginning of the present Session, but he has recently resigned his office on the ground of the uncertainty of his movements. Count Charles Arrivabene, who had been his substitute, and who had proved a very efficient Teacher, has been appointed to the vacant Professorship.

DONATIONS.

Hume Memorial Fund.

The Council, at their Session of the 11th of July last, were informed by the Vice-President of the College, the Earl Fortescue, that a Committee (of which he was Chairman) of Subscribers to a Memorial of the Public Services and Virtues of the late Mr. Joseph Hume, had determined on presenting to the College the Fund collected for the purpose of that Memorial, with the view that there might be founded in the College a Scholarship for the advancement of the Sciences of Jurisprudence and Political Economy, to bear the name of the "Joseph Hume Scholar-

ship." The Council were gratified by the proposal to connect the College with the Memorial to a distinguished public man who had been one of its warmest friends and advocates, who had bestowed on it signal proofs of attachment and confidence, and had rendered it essential services. Moreover, they fully approved the object of the endowment. They therefore thankfully accepted the offer, and in pursuance of a vote of the Subscribers at a General Meeting, the sum of £1330 was transferred to the College by the Trustees of the Fund, Lord Robert Grosvenor (now Lord Ebury), Sir James Duke, M.P., Mr. Nicholay, and Mr. Wm. Williams, M.P., and invested without delay in the purchase of £1471 12*s.* 1*d.* Consols. A Committee of the Council, consisting of the Earl Fortescue, Mr. Booth, Mr. Goldsmid, Mr. Grote, Mr. Hutton, the Master of the Rolls, and Sir Edward Ryan, was appointed to frame regulations for carrying into effect the views of the Subscribers to the Memorial; a scheme proposed by them was adopted by the Council, and two Scholarships, one for Jurisprudence, and one for Political Economy, each of £20 a year, tenable for three years, were instituted.

As the dividends of the Fund would only admit of two such Scholarships every three years, the Council, in order to make Scholarships for Jurisprudence or Political Economy annual, determined on devoting the Dividends of a Fund belonging the College, called the Ricardo Fund, to another Political Economy Scholarship, to be called the Ricardo Scholarship, of the same value and duration as a Joseph Hume Scholarship. The regulations concerning the Scholarships will be found in the Appendix to this Report.

THE HOLLIER FUND.

In the Annual Report for the year 1853 allusion was made to a Legacy of Mr. Richard Hollier, of Greenwich, then lately deceased, who had by his Will dated 5th August, 1850, bequeathed his residuary Estate to the College after the death of his wife. Mrs. Hollier, with the concurrence of her co-Executors, has spontaneously made over to the College the property representing the residuary personal Estate of her late husband, to be held subject to her Life Interest. By an arrangement between Mrs. Hollier and the Council the Legacy Duty chargeable on account of the bequest to the College, having been deducted from the principal of the fund, the remainder, consisting of £4907 11*s.* 10*d.* Reduced 3 per Cents., was, in April and May last, transferred to the College.

The proceeds of the Legacy, after Mrs. Hollier's death are, according to Mr. Hollier's Will, "to be applied by the College in founding, or in assisting the foundation of, a Greek and Hebrew Scholarship in such way or form as the Committee of the said University College shall think most expedient." It will be the duty of the Council, when the College shall become entitled to the Income of the fund, to devise a scheme for applying it for the benefit of the College in a manner consistent with the desire expressed by the Testator.

LEGACY BY MR. MESSENGER.

In the month of May the College received from the Executors of the late Mr. James Messenger the sum of £174 15*s.* 10*d.* as their share with twenty-three other Educational and Charitable Institutions in the Residuary Estate of the Testator.

MISCELLANEOUS GIFTS.

The College is indebted to a former Student, Mr. George Knott, for a graceful token of remembrance of his Alma Mater, in a gift of £10, to be

bestowed by the Council as a Prize for an Essay on some subject connected with Astronomy. The subject proposed by the Council, at the suggestion of the Professor of Natural Philosophy and Astronomy, Mr. Potter, is "On the Progress of Navigation, as Connected with the Progress of Astronomy." The Prize will be awarded at the same time as the Andrews Scholarships, at the commencement of the next Session.

Besides the presents of books and contributions to Museums mentioned in the list in the Appendix, the Council have the pleasure of recording that a present of books has been received from the Smithsonian Institution of the United States of America; and that the Museum of Geological and Mineralogical Specimens has been enriched by gifts from Mr. Alfred Wills, a Fellow of the College, of two hundred specimens of Carboniferous Fossils of the Mont Blanc group of Mountains, and from the Commissioners of the Great Exhibition of 1851, of a valuable set of Rocks and Metallic Ores.

The Collection of Engraved Portraits of Friends of the College, exhibited in the Council Room, has been added to by the present from Mr. John Abel Smith, M.P., of the portrait of his father, the late John Smith, Esq., M.P. This is a Proof Impression of a Plate by Mr. G. R. Ward, from a Painting by Mr. Frederick R. Say. For the information of Junior Members of the College, it may be right to add that Mr. John Smith was one of the first Members of the Council, a gentleman who took a very active and important part in the foundation of the College, and joined with the Baron de Goldsmid and Mr. Benjamin Shaw in purchasing for it, at their own risk, the ground which forms the site of the Institution.

Mr. Booth has presented the College and Hospital each with a very characteristic Portrait, framed and glazed, of the beneficent friend of the Hospital, Mr. John Kenyon, drawn on stone by Mr. Richard James Lane, from a drawing by Mr. J. C. Moore.

Mr. W. Cave Thomas has made a gift to the College of a large Cartoon, exhibited by him in Westminster Hall in 1845, in competition for the decoration of the Houses of Parliament. This Cartoon represents Philosophy, Geometry, and Astronomy; the abashment of Superstition, and the subjection of Error to human power. It was one of the six works in the Exhibition which were most approved by Her Majesty's Commissioners, and which obtained for their authors orders for designs at premiums for each of four hundred pounds. The subject and treatment render it a highly appropriate decoration for the walls of a College Theatre; and it is especially acceptable as evidence of the success of a former Student. It has been fixed in the Lower South Theatre.

NEW CHARTER OF THE UNIVERSITY OF LONDON.

An account of the proceedings of the Special General Meeting of the Members of the College, on the 10th June last, respecting the proposed New Charter of the University of London, will appear in the Appendix to the published account of this day's proceedings.

At a Session of the Council of the College, held on Saturday the 27th June, the Draft of the proposed New Charter of the University, communicated by the Senate, the Resolutions of the General Meeting of Members of the College above set forth, and a printed paper, dated 19th June 1857, entitled an "Address to the Council of University College, London, from the Senate of the College on the New Charter proposed for the University of London," were considered by the Council of the College, and resolutions passed as follows:—

"That the Council, having heard the address of the Senate to them of

the 19th of this instant June, will proceed forthwith to carry into effect the requests contained in the resolutions passed by the Members of the College at their Special General Meeting on the 10th June last to communicate with the Senate of the University of London and the Home Office on the subject of the Charter which it is proposed to grant to the University.

"That while the Council would willingly concur in any well-considered scheme by which certificates of proficiency might be granted to persons not educated in the affiliated colleges, they cannot approve of the proposed New Charter.

"That in the 36th clause of the proposed New Charter the Council are unable to find any security against the admission of persons as Candidates for Degrees who may have passed through no regular training, and may have pursued no course of systematic and continuous study."

These resolutions were passed by the Council on a division of 10 to 5 in opposition to an amendment moved by one of its members.

In compliance with the request of the Special General Meeting, the Council communicated to the Senate of the University of London, and to Her Majesty's Secretary of State for Home Affairs, the resolutions passed at that Meeting, the Address of the Senate of this College to the Council, and the resolutions passed by the Council at their Session on the 19th June; and they requested an audience of the Minister, Sir George Grey, for a deputation from the College to represent orally the views of the objectors. An interview took place accordingly at the Home Office on the 13th August, and, after discussion, Sir George Grey promised that the subject and the documents submitted to him should be considered by himself and his colleagues of the Government.

MEDICAL REFORM BILLS.

The Council paid attention to the measures on Medical Reform proposed in the last Session of Parliament. They drew up a paper of observations on the Bills of Mr. Headlam and Lord Elcho*. In that paper they expressed their concurrence in the comments of a memorial which the Senate of the University of London had submitted to the Government, and in the preference avowed in that memorial for the Bill of Lord Elcho. They also alleged reasons against several provisions of Mr. Headlam's Bill, concluding with the general observation, that while it was calculated to conciliate the present governing bodies of divers medical corporations, it left greatly out of view the interests of those who would in future constitute the great body of the medical profession.

Copies of this paper were circulated among Members of the House of Commons. A considerable majority of that House having voted in favour of Mr. Headlam's Bill, a Deputation from the College obtained an audience of Lord Palmerston to urge on the Government their objections to it. His Lordship heard them with attention, and expressed an opinion favourable to their general views. Neither Bill passed.

WORKING MEN'S MEMORIAL TO SIR ROBERT PEEL.

In execution of the Trusts of this Fund, the Council in the course of last summer presented a collection of books, costing £15, to each of the Institutions following:—The Mechanics' Institute, Hull; the Institute of Popular Science and Literature, York; the Working Men's Public Library and Reading Rooms, Merthyr Tydfil; and the Dowlais Library and Reading Room, Dowlais. These four Institutions stood last on the

* *Vide* Appendix, p. 3.

list of the sixteen appointed in the schedule of regulations to take priority in the enjoyment of the benefits of the Fund; and all the Institutions specified in those Regulations have now had collections bestowed on them. Henceforth the Council will have to select the Institutions to which presents of books are to be made. In making such future distribution, it will be their duty to confer the benefits of the fund on Institutions maintained by working men, or to which working men or boys have access gratis, or at a small charge; and, conformably with the suggestion contained in the regulations, they will take into consideration the amount of subscriptions derived by the Fund from the respective places. The income of the Fund for the current year will not admit of the distribution of more than three collections of books at the cost of £15 for each collection.

FINANCES.

In the year 1856–57, as in the three preceding ones, the receipts applicable to the establishment department of the College were sufficient, not only to defray the usual expenses, but to admit of some expenditure not of ordinary occurrence, in repairing and adding to the property of the College. The College portion of the fees of Students amounted, as already stated, to £3362 16*s.* 11*d.*; the dividends of investments, and other sources, including Mr. Messenger's legacy of £174, an extra receipt, but omitting the income from funds appropriated to specific purposes, yielded £1455 9*s.* 8*d.* These sums together made £4818 6*s.* 7*d.* The expenses amounted to £4561 15*s.* 2*d.*, and there was a balance in favour of receipt of £256 11*s.* 5*d.*, against which, however, should be put a printer's bill of £216, incurred, but not paid, during the Session. Among the extraordinary expenses was that of £340 16*s.* for extensive repairs to the roof. Of that sum £220 was spent in substituting a roof of slate slabs to the Portico in the place of the original cast-iron tiles, which from the first had proved inefficient.

THE HOSPITAL.

The condition of the Hospital during the past year was much as it had been during several preceding years. The poor derived from it the accustomed amount of succour, and the means of meeting the expenditure fell short of the requirements in about the usual degree. The general deficiency at the end of the year would have been considerably increased, but for the appropriation to the payment of bills of one-third of Mr. Kenyon's legacy, according to the resolution announced in the last Report. For the year now entered on, the Committee find they have no alternative but to fulfil the intention anticipated in the last Report, of holding a Public Dinner in aid of the funds. Lord John Russell has kindly consented to preside, and has fixed on Tuesday the 20th April for holding the Festival, at the London Tavern, Bishopsgate Street.

The Council would gladly abstain from having recourse to such means as a Dinner for recruiting the funds of the charity; but since, according to the experience of the University College Hospital, and of other similar institutions, by no other mode are the Public so successfully induced to lend their aid, it seems to be their duty to consent to the adoption of this plan, and to claim the assistance of the friends of the College in rendering it effectual.

The debt of the Hospital on 31st October last, incurred during a long series of years at an average rate not exceeding £210 per annum, was £5058; of that sum £3000 was due on loan at interest, and £2058 were outstanding bills. To pay the last-mentioned sum, and to maintain the charity during the current year without incurring new debt, a sum of

£3500 would be required; and when it is considered that this is the third year since a dinner was held, the Hospital Committee may probably with some hope of success direct their efforts to the raising a considerable part of that sum. The College, as is generally acknowledged, has much cause to pride itself on the institution of its Medical School, on the eminence which that School has attained, on the improvements which it has introduced into the system of Medical Education in England, and on the benefits which it has conferred on society. On these grounds, therefore, as well as in consideration that of all means of relieving the distresses of the poor those afforded by hospitals are the most free from abuse or question, the Council do not hesitate to commend that important branch of their Medical School, the Hospital, to the advocacy and support of all friends of the College, and to remind them how greatly the entire institution was at one time indebted for its existence to the renown of the Medical Branch of it.

CHARLES C. ATKINSON, *Secretary.*

The List of Students of the College who have taken Degrees at the University of London, of those who obtained Honours at the Examination for Degrees, and also the List of Students who obtained Prizes and Certificates of Honour in the College Examinations in the Session 1857, will be found in the University College Calendar for 1858.

A Calendar of the College, containing an Almanack, with notices of the openings of Courses, Vacations, &c.; Prospectuses; Reports of the Distribution of Prizes of both Faculties, and of the Junior School; Bye-laws and Regulations for the Academical Proceedings of the College; College Examination Papers; Abstracts of the Regulations of various Examining Bodies; List of Members of the College; and other matter of interest to Members of the College, Parents and Students; is published yearly, and may be had of Messrs. Walton and Maberley, price 3*s*.

SCHOLARSHIPS OF JURISPRUDENCE AND POLITICAL ECONOMY.

JOSEPH HUME SCHOLARSHIPS IN JURISPRUDENCE AND POLITICAL ECONOMY.

RICARDO SCHOLARSHIP IN POLITICAL ECONOMY.

THE COUNCIL HAVE RECEIVED FROM THE SUBSCRIBERS TO A MEMORIAL OF THE PUBLIC SERVICES AND VIRTUES OF THE LATE MR. JOSEPH HUME THE SUM OF £1330 "FOR THE ESTABLISHMENT OF A SCHOLARSHIP TO ADVANCE THE SCIENCES OF JURISPRUDENCE AND POLITICAL ECONOMY, TO BEAR THE NAME OF THE JOSEPH HUME SCHOLARSHIP."

THEY HAVE DETERMINED TO DEVOTE THE GREATER PART OF THE DIVIDENDS OF A FUND, BELONGING TO THE COLLEGE, CALLED THE RICARDO FUND, TO THE FOUNDATION OF A SECOND SCHOLARSHIP IN POLITICAL ECONOMY, TO BE CALLED THE RICARDO SCHOLARSHIP.

These Scholarships will be as follows:—

1st. A JOSEPH HUME SCHOLARSHIP in Jurisprudence of £20 a year, tenable for three years, to be awarded in December of 1858, and in December of every third year afterwards.

2nd. A JOSEPH HUME SCHOLARSHIP in Political Economy of £20 a year, tenable for three years, to be awarded in December of 1859, and in December of every third year afterwards.

3rd. A RICARDO SCHOLARSHIP in Political Economy of £20 a year, tenable for three years, to be awarded in December of 1860, and in December of every third year afterwards.

REGULATIONS.

1. Every Candidate for a Scholarship must have been, during the Academical year immediately preceding, a matriculated Student of the College, and must produce satisfactory evidence of having regularly attended the Class on the subject of the Scholarship.

2. He must announce to the Secretary, on or before the 1st of November, his intention to compete for the Scholarship.

3. The Examination shall begin on some day between the 1st and 14th of December, to be appointed by the Council; it shall be conducted by printed papers, the papers of each Examiner, if more than one, being previously submitted to the other Examiners for their approval. The answers shall be inspected by every Examiner.

4. If the Examiners be more than one, and be not in the first instance unanimous in their opinion respecting the superiority of any candidate, they shall re-examine the answers sent in by every Student respecting whom they are not unanimous, and a majority of Examiners shall then decide; but if there be no majority, a fresh examination, with the aid of an umpire, if necessary, shall take place of the Students thus placed in opposition by the Examiners.

5. If the Examiners, in addition to the Candidate whom they recommend as most deserving of the Scholarship, be of opinion that there are any other Candidates whose positive proficiency they would have considered worthy of the Scholarship, they shall report to the Council the names of such Candidates, as worthy of commendation, in the order of their merit.

6. The Examiners shall be appointed by the Council.

7. The Council will withhold any of the Scholarships, in the event of the Examiners being of opinion that the candidate or candidates have not sufficient merit.

8. For every Scholarship not awarded, an extraordinary Scholarship may be awarded in the next year, together with, but independently of, the ordinary Scholarship then to be given.

9. Each Scholarship will be payable on the 1st of February for three years.

10. No Scholar can be re-elected to a Scholarship in the same subject.

By the Council,

1st August, 1857. CHAS. C. ATKINSON, *Secretary.*
